#### PT 22/1/9

### Advantages

Minimum size at high output

Integrated overload protection using PTC in the input

Dual output voltage for series or parallel connection

Permanent corrosion protection, high insulation value and maximum electrical reliability due to XtraDenseFill resin encapsulation

Self-extinguishing potting material

Space saving installation due to additional screw mounting in the base plate

## **Applications**

As a mains transformer for adjustment of the voltage and simple electrical

Safety transformer for the safe electrical isolation of the input and output sides. The transformer is suitable for creating SELV and PELV circuits because of the limit on the output voltage.

### Sample application

#### Standards

Safety isolating transformer to: VDE 0570 Part 2-6, DIN EN 61558-2-6, EN 61558-2-6, IEC 61558-2-6 Approvals

VDE, UL 5085-1/-2, CSA 22.2 No.66

# Safety isolating transformer **PT 22/1/9**
