

Autotransformer VT 50-EN

Picture shows VT 50-EN

Advantages

- Low weight and small size (compared to isolating transformers)
- Very high efficiency
- Very good moisture protection and low noise due to vacuum impregnation
- Contact protected screw connection terminals complying with UVV BGV A3
- Simple mounting due to robust metal fixing rail with oval slots

Applications

Autotransformer for adjustment of the voltage on the input and output sides with no requirement for electrical isolation.
